

Therm-Chek® 704

Stabilizer Product Profile

Product Description

Therm-Chek® 704 is a powder calcium-zinc stabilizer for wire and cable.

The proprietary stabilizer technology has been developed as a replacement for lead based heat stabilizers in formulations that meet the demands of wire and cable technology. Therm-Chek® 704 is especially useful in general jacketing applications that do not require wet electrical properties.

Safety and Handling

Complete toxicity and handling information can be found on the Material Safety Data Sheet, which is available on request.

Typical Properties

Physical state	Off-white powder
Specific Gravity (25°C)	1.5
Lubricity	None
