

Therm-Chek® SP 1608

Stabilizer Product Profile

Product Description

Therm-Chek® SP 1608 is a magnesium calcium zinc heat stabilizer for use in plastisol applications. It provides good initial color hold and long term stability in plastisol applications.

Therm-Chek® SP 1608 is suitable for use in clear plastisol formulations. The ingredients of Therm-Chek® SP 1608 are suitable for food contact applications under 21 CFR 178.2010 or 21 CFR 181.

Safety and Handling

Complete toxicity and handling information can be found on the Material Safety Data Sheet, which is available on request.

Typical Properties

Physical state	Translucent soft paste when cool
Density (lbs./gal.)	8.06
Viscosity (Gardner)	Z-2
Color (Gardner)	2
