

Therm-Chek® SP 1890

Stabilizer Product Profile

Product Description

Therm-Chek® SP 1890 is a calcium-zinc powder stabilizer for wire and cable.

This proprietary stabilizer technology has been developed as a replacement for lead based heat stabilizers in formulations that meet the demands of wire and cables technology. Therm-Chek® SP 1890 can be used in general purpose jacketing applications as well as insulation applications which do not require long term water aging at elevated temperatures.

Safety and Handling

Complete toxicity and handling information can be found on the Material Safety Data Sheet, which is available on request.

Typical Properties

Physical State	Off-white powder
Specific Gravity, 25°C.	1.1
Lubricity	Low
