

Therm-Chek® SP 593

Stabilizer Product Profile

Product Description

Therm-Chek® SP 593 is a vegetable based grade calcium, zinc powder heat stabilizer for use in plastisol and extrusion flexible PVC applications. Therm-Chek® SP 593 was developed to provide good early color hold and long term heat stability in plastisol and extrusion application.

Therm-Chek® SP 593 contains ingredients listed in 21 CFR 178.2010 and is suitable for use in food contact applications. Therm-Chek® SP 593 is produced from vegetable-based acids. Therm-Chek® SP 593 is suitable for use in clear and pigmented formulations.
